Important Questions and Answers

If there is a history of cancer in my family, can I still purchase the protection?

Yes! The group premiums shown on the Enrollment Form apply to all members. However, you or any member of your family who now has or has ever had cancer of any form will be excluded from coverage.

What are the Limitations and Exclusions of this policy?

Benefits are paid only for the definitive treatment of cancer which is first diagnosed more than 60 days after the effective date of coverage. Positive pathological proof of cancer is required. Treatment of other diseases or accidents is not covered with the exception of the intensive care option which pays applicable benefits for confinement due to any illness. Nor does the policy cover expenses in connection with medical care not recommended and approved or performed by a physician; hospital confinement for which an insured is not legally required to pay in the absence of insurance, or to which he is entitled or obtains without charge by law.

How long may I keep my coverage?

There is no age termination! You may keep your coverages as long as you pay your premiums, and the plan remains in force. Coverage for your spouse, and dependent children will terminate whenever they cease to be eligible dependents.

Are benefits paid directly to me or the hospital?

All benefit checks are drawn in your name and sent directly to you. You alone determine how to use them.

Will this plan pay even if I have other insurance?

Yes! You will receive benefit checks regardless of other existing plans or programs that you have.

If I am hospitalized more than once during a year, how are benefits paid?

If you return to the hospital within 30 days of your discharge, your next stay will be considered a continuation of your previous confinement. If you return to the hospital after 30 days or more, your next confinement will be considered a new confinement, and your hospital benefits start all over again.

Is there any limit on the length of confinement?

No! Benefits will be paid to you for as long as you or a member of your insured family is confined in the hospital, up to the lifetime maximum benefit per insured, which is \$250,000.
